

PHM 2006 - OVERVIEW OF POSTER PRESENTATIONS

| | Author and name of presentation |
|----|--|
| 4 | Castiella A. - <i>Macroaspartate aminotransferase (MACRO-AST). A rare cause of hypertransaminasemia, another way to diagnosis?</i> |
| 5 | Castiella A. - <i>Porphyria cutanea tarda. HFE gene mutations, hepatitis viruses, alcohol intake and other risk factors analysis in the Basque country.</i> |
| 6 | Zapata E. - <i>Effectiveness of hepatocellular carcinoma surveillance in cirrhotic patients.</i> |
| 7 | Bassett M. - <i>Characterisation of the phenotype in C282Y/H63D compound heterozygotes in hemochromatosis.</i> |
| 8 | Husa P. - <i>Viral kinetics in patients with chronic hepatitis C treated with pegylated interferon alpha-2a and ribavirin.</i> |
| 9 | Husová L. - <i>Bacterial infection and acute bleeding from upper gastrointestinal tract in patients with liver cirrhosis.</i> |
| 10 | Zapata E. - <i>Hepatic toxocara infestation.</i> |
| 11 | Turcanu A. - <i>Treatment of patients with chronic hepatitis C associated with Herpes simplex 1,2.</i> |
| 12 | Gabr M. - <i>Management of bleeding anorectal varices in cirrhosis.</i> |
| 13 | Tharian B. - <i>A serologic study of acute liver failure.</i> |
| 14 | Gedik N. - <i>Aqueous garlic extract alleviates ischemia-reperfusion-induced oxidative hepatic injury in rats.</i> |
| 15 | Gedik N. - <i>Chronic administration of aqueous garlic extract (AGE) alleviates liver fibrosis and oxidative damage induced by biliary obstruction in rats.</i> |
| 16 | Hendrichová M. - <i>Microsomal liver function in patients with liver cirrhosis and chronic heart failure assessed with the 13C-methacetin breath test.</i> |
| 17 | Bonvin M. - <i>The restriction of hepatitis B virus replication by the cytidine deaminase APOBEC3B involves a hypermutation-independent mechanism.</i> |
| 20 | Castiella A.. - <i>Biliary Hamartomas (von Meyenburg complexes). Clinical and Imaging findings in a series of 7 patients.</i> |
| 21 | El Tahawy M. - <i>Chronic Hepatitis C /Alcoholic Cirrhosis versus HCV cirrhosis alone, the blood allies.</i> |
| 22 | El Tahawy M. - <i>Do patients with alcoholic cirrhosis have more liability to have early variceal bleeding than Hepatitis C Cirrhosis? A retrospective analysis.</i> |
| 23 | El Tahawy M. - <i>Propranolol-Mononitrate combination versus endoscopic management of variceal rebleeding: A prospective, randomized study in Schistosomal/HCV co-infected patients.</i> |
| 24 | Aiglová K. - <i>Our experiences in treatment of chronic hepatitis C in hemophiliacs.</i> |
| 25 | Serafińska S. - <i>Influence of variceal band ligation by nylon miniloop use on subjective symptoms in patients with liver cirrhosis.</i> |
| 26 | Semuchiniene T. - <i>Bile ducts damage and hepatitis C virus genotypes.</i> |
| 27 | Jirkovský V. - <i>Dedicated ePTFE-Covered Stent-Grafts in The Treatment of Transjugular Intrahepatic Portosystemic Shunt (TIPS) Dysfunction.</i> |
| 28 | Aster V. - <i>Influence of GBV-C/HGV infection on CD4+ count in HIV-infected patients from AIDS-Center Prague.</i> |
| 29 | Chemello L. - <i>Depressive profiles and risk factors among subjects with primary and IFN-induced depression.</i> |
| 30 | Cavalletto L. - <i>Changes in serum tryptophan and depression during antiviral therapy with recombinant IFN (R-IFN) and pegylated IFN (PEG-IFN) in chronic hepatitis C.</i> |
| 31 | Příbramská V. - <i>The effect of E.coli Nissle on the liver function, intestinal microflora, bowel permeability and endotoxin level in patients with liver cirrhosis.</i> |
| 32 | Serafińska S. - <i>Influence of variceal band ligation by nylon miniloop use on laboratory parameters in patients with liver cirrhosis.</i> |
| 33 | Serafińska S. - <i>Influence of variceal band ligation by nylon miniloop use on liver function in patients with liver cirrhosis.</i> |
| 34 | Hlinšťáková S. - <i>Wilson's disease and pregnancy- the treatment and management during pregnancy - our observations.</i> |
| 35 | Takeoka H. - <i>Atherosclerosis in healthy residents is not associated with hepatitis B virus or hepatitis C virus infection.</i> |
| 36 | Murata M. - <i>A comparison of the antitumor effects of interferon-alpha and beta.</i> |

| | |
|----|---|
| 37 | Toyoda K. - <i>Risk factors for Hepatitis E virus infection: A study of wild boar hunters in Okinawa, Japan.</i> |
| 38 | Bhatt A. - <i>Economic evaluation of vasoactive management options for acute oesophageal variceal bleeding in cirrhotic patients: A Belgian comparison.</i> |
| 39 | Christodoulou I. - <i>"Malignant" hypoglycemia in hematomas.</i> |
| 40 | Nováková B. - <i>Ultrasound records of the liver steatosis and cirrhosis in comparison with physiological records processed and differentiated by means of the neuronal nets.</i> |
| 41 | Nováková B. - <i>Digital processing and differentiation of the ultrasound records of the liver echogenicity in patients with non alcoholic fatty liver disease (NAFLD).</i> |
| 42 | Christodoulou I. - <i>Pre-operative biliary drainage in hepatobiliary cancer: Still a controversial issue?</i> |
| 43 | Christodoulou I. - <i>Re-defining the pathophysiology of cholestasis.</i> |
| 44 | Furusyo N. - <i>Circulating Adiponectin and HCV viremic levels in patients with chronic hepatitis C.</i> |
| 45 | Fejfar T. - <i>Brain natriuretic peptide (BNP) : marker of portal hypertensive circulatory dysfunction?</i> |
| 46 | Marincu I. - <i>The Prevalence of Chronic Hepatitis D at Patients with Diabetes Mellitus in Western Romania.</i> |
| 47 | Hrušovský Š. - <i>Treatment of genotype 1 HCV infection by peginterferon alpha-2b and ribavirin weight-adapted combination therapy. Results in 19 patients.</i> |
| 48 | Kupčová V. - <i>Investigation of interleukin 10 and hyaluronic acid in patients with chronic viral hepatitis treated by interferon.</i> |
| 49 | Kupčová V. - <i>Progressive familial intrahepatic cholestasis – Byler syndrome – natural course in one family.</i> |
| 50 | Kupčová V. - <i>Dynamic observation of parameters of proteosynthetic liver function before and after liver transplantation.</i> |
| 51 | Půtová I. - <i>The hemochromatosis gene: a co – factor for chronic liver diseases?</i> |
| 52 | Půtová I. - <i>Association between the hemochromatosis gene (HFE) mutations and rheumatic diseases.</i> |
